

Treasure hunt - Testimony from the mission trip TAPA 14

Ester Korčáková (16), Mělník

During the mission trip to Estonia we had the Treasure hunt three times. I founded my treasure right the first day.

I wrote down those clues: a shop, a hat, a green T-shirt and pain in the arm into my treasure map. We splited up into several small groups according to the places that God revealed to us. My group went to the local shops.

I took note of many women with hats right near the first shop. So I looked for someone with a green T- shirt. Then I saw some old lady with a green blouse. After a long deliberation we addressed her, but she spoke Russian and we didn't have a Russian translator. That is why I decided to look out for someone else. After sometime I saw some other woman. This lady had a white hat, a green T-shirt and she was leaving the shop very quickly. We didn't have much time to make up our minds and we ran to her very quickly. She spoke Estonian so it was good.

Our Estonian translator explained to her what is going on. She had pain in her arm so that we asked her if we could pray for her. She agreed so I could pray for her. At the end we invited this lady for the afternoon program. She said good bye to us with a smile on her face.

I was very encouraged by God's acting and by the fact that Treasure hunt is really an easy and amusing method of evangelism.
