

Search and find Treasure at the outreach to Estonia TAPA 16

Lucie Provazníková (23), Nejdek

Treasure Hunt is a game. First, we pray for clues and then we go into the field to look for something very precious – people. Tell them about Jesus, pray for them and encourage them.

It was one of the first information that I had received about the missionary trip to Estonia. I was very excited and I really wanted to find at least one. Some groups actually found treasures. They were telling of experiences in search for treasures and of the joy of discovery. Our group despite of painstaking investigation did not find anyone.

I cannot say that I find anything during the time in Estonia. On the contrary I could see many treasures. I saw a small church, a brave and exceptional for its hospitality. I know of three, who are born again in a single day.

One of the strongest moments for me was a time when I told my testimony. Later I had learnt that there was one woman in the church, who went through exactly what I had experienced. I think she is the one my treasure. Maybe the reason I was in Estonia.
